

**Don't you love watching a good movie. We just sit back with a bag of popcorn and a glass of tea, and let our minds absorb the scenes of beauty, and story that unfolds before us. Most films are fictional, and if they are based on fact, usually are changed to sell the movie. The light is projected on the screen and we are affected by the characters we see, and often times, cry as tragedy unfolds, or laugh when a joyful moment occurs. If there were a camera filming your life, what would others see. Would they see a true life of devotion and integrity, or would the story seem like fiction to those who view the film. Our lives are an open book to the Lord, who knows every idle word and every event in our lives. Let's make a good film for others to watch, and a good account as we stand before the Bema Seat of our Savior. DEM**
